

Druck- und Laufrollen Pressure rollers and Cam followers

Seite / Page 374

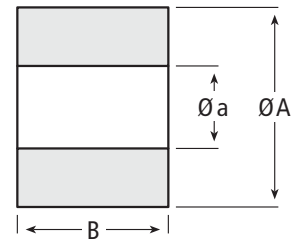

Unsere Rollen wurden speziell für die Getränkeindustrie entwickelt und zeichnen sich, je nach Werkstoff, aus durch:

- Geringen Rollwiderstand
- Höchste Laufruhe
- Hohe Flächenpressung
- Geringe Verformung
- Gute dynamische Belastbarkeit
- Hohes Festigkeitsniveau

Our rollers are specially developed for the bottling industry and stand out, depending on material, due to characteristic features such as:

- Low rolling resistance
- Silent running
- High contact pressure
- Low deformation
- Good dynamic carrying capacity
- High stability levels

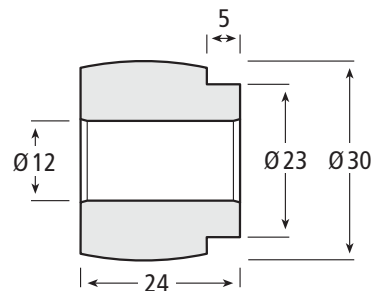

Rollen Rollers

Artikel Nr. Part No.	Abmessungen / Dimensions in mm		
	Ø A	Ø a	B
104.0026	20	6	10
104.0216	25	12	12
104.0218	30	8,5	17
104.0010	30	12,5	22,7
106.0077	49,5	14	13,5
104.0217	50	24	39

Material: Kunststoff / Plastic
